

AVANTGARDE COLLECTION

Chandelier LQ  
by Hani Rashid

LQ

The luminaires in the Avantgarde Collection are trendsetters. They combine innovative materials, experimental shapes and an unconventional approach to light in fascinating luminaires. Luminaires which cast their spell over both beholders and rooms alike. Progressive designers, such as Hani Rashid, have enriched the Avantgarde Collection with designer items that reveal the full potential of this felicitous marriage of light and design.

Avantgardisten sind Trendsetter. Sie vereinen innovative Materialien, experimentelle Formen und einen unkonventionellen Umgang mit Licht zu faszinierenden Leuchten. Leuchten, die Betrachter und Raum gleichermaßen in ihren Bann ziehen. Progressive Designer wie Hani Rashid bereichern die Avantgarde Collection mit ihrer Kreativität und zeigen, welche Potenziale die gelungene Symbiose von Licht und Design birgt.

L'avanguardia fa tendenza. Sperimenta materiali innovativi, forme nuove, modi non convenzionali di affascinare con la luce. Nascono così apparecchi d'illuminazione capaci di dare magia agli ambienti e di sedurre chi li vive. La Avantgarde Collection si arricchisce della creatività di un designer progressista come Hani Rashid. Rivelando i potenziali di una felice simbiosi tra luce e design.

# Chandelier LQ

The LQ chandelier, designed by Hani Rashid, is the spectacular first launch in this exciting Collection. "LQ" is the New York architect's humorous reference to Louis Quatorze, the "Sun King", and a modern interpretation of the opulent crystal chandeliers of the 18th and 19th centuries, but without using crystal, glass or candles.

Der LQ Luster, entworfen von Hani Rashid, macht den spektakulären Beginn dieser aufregend anderen Kollektion. „LQ“, eine humorvolle Referenz des New Yorker Architekten an den Sonnenkönig Louis Quatorze, ist eine moderne Interpretation der üppigen Kristallluster des 18. und 19. Jahrhunderts, ganz ohne Kristall, Glas oder Kerzen.

Il lampadario LQ disegnato da Hani Rashid inaugura in modo spettacolare questa collezione così diversa. L'architetto newyorkese l'ha chiamato "LQ" con spiritoso riferimento al Re Sole Luigi Quattordicesimo. Si tratta infatti di un'interpretazione moderna degli opulenti lampadari di cristallo del 18. e 19. secolo, questa volta però senza cristallo né vetro né candele.

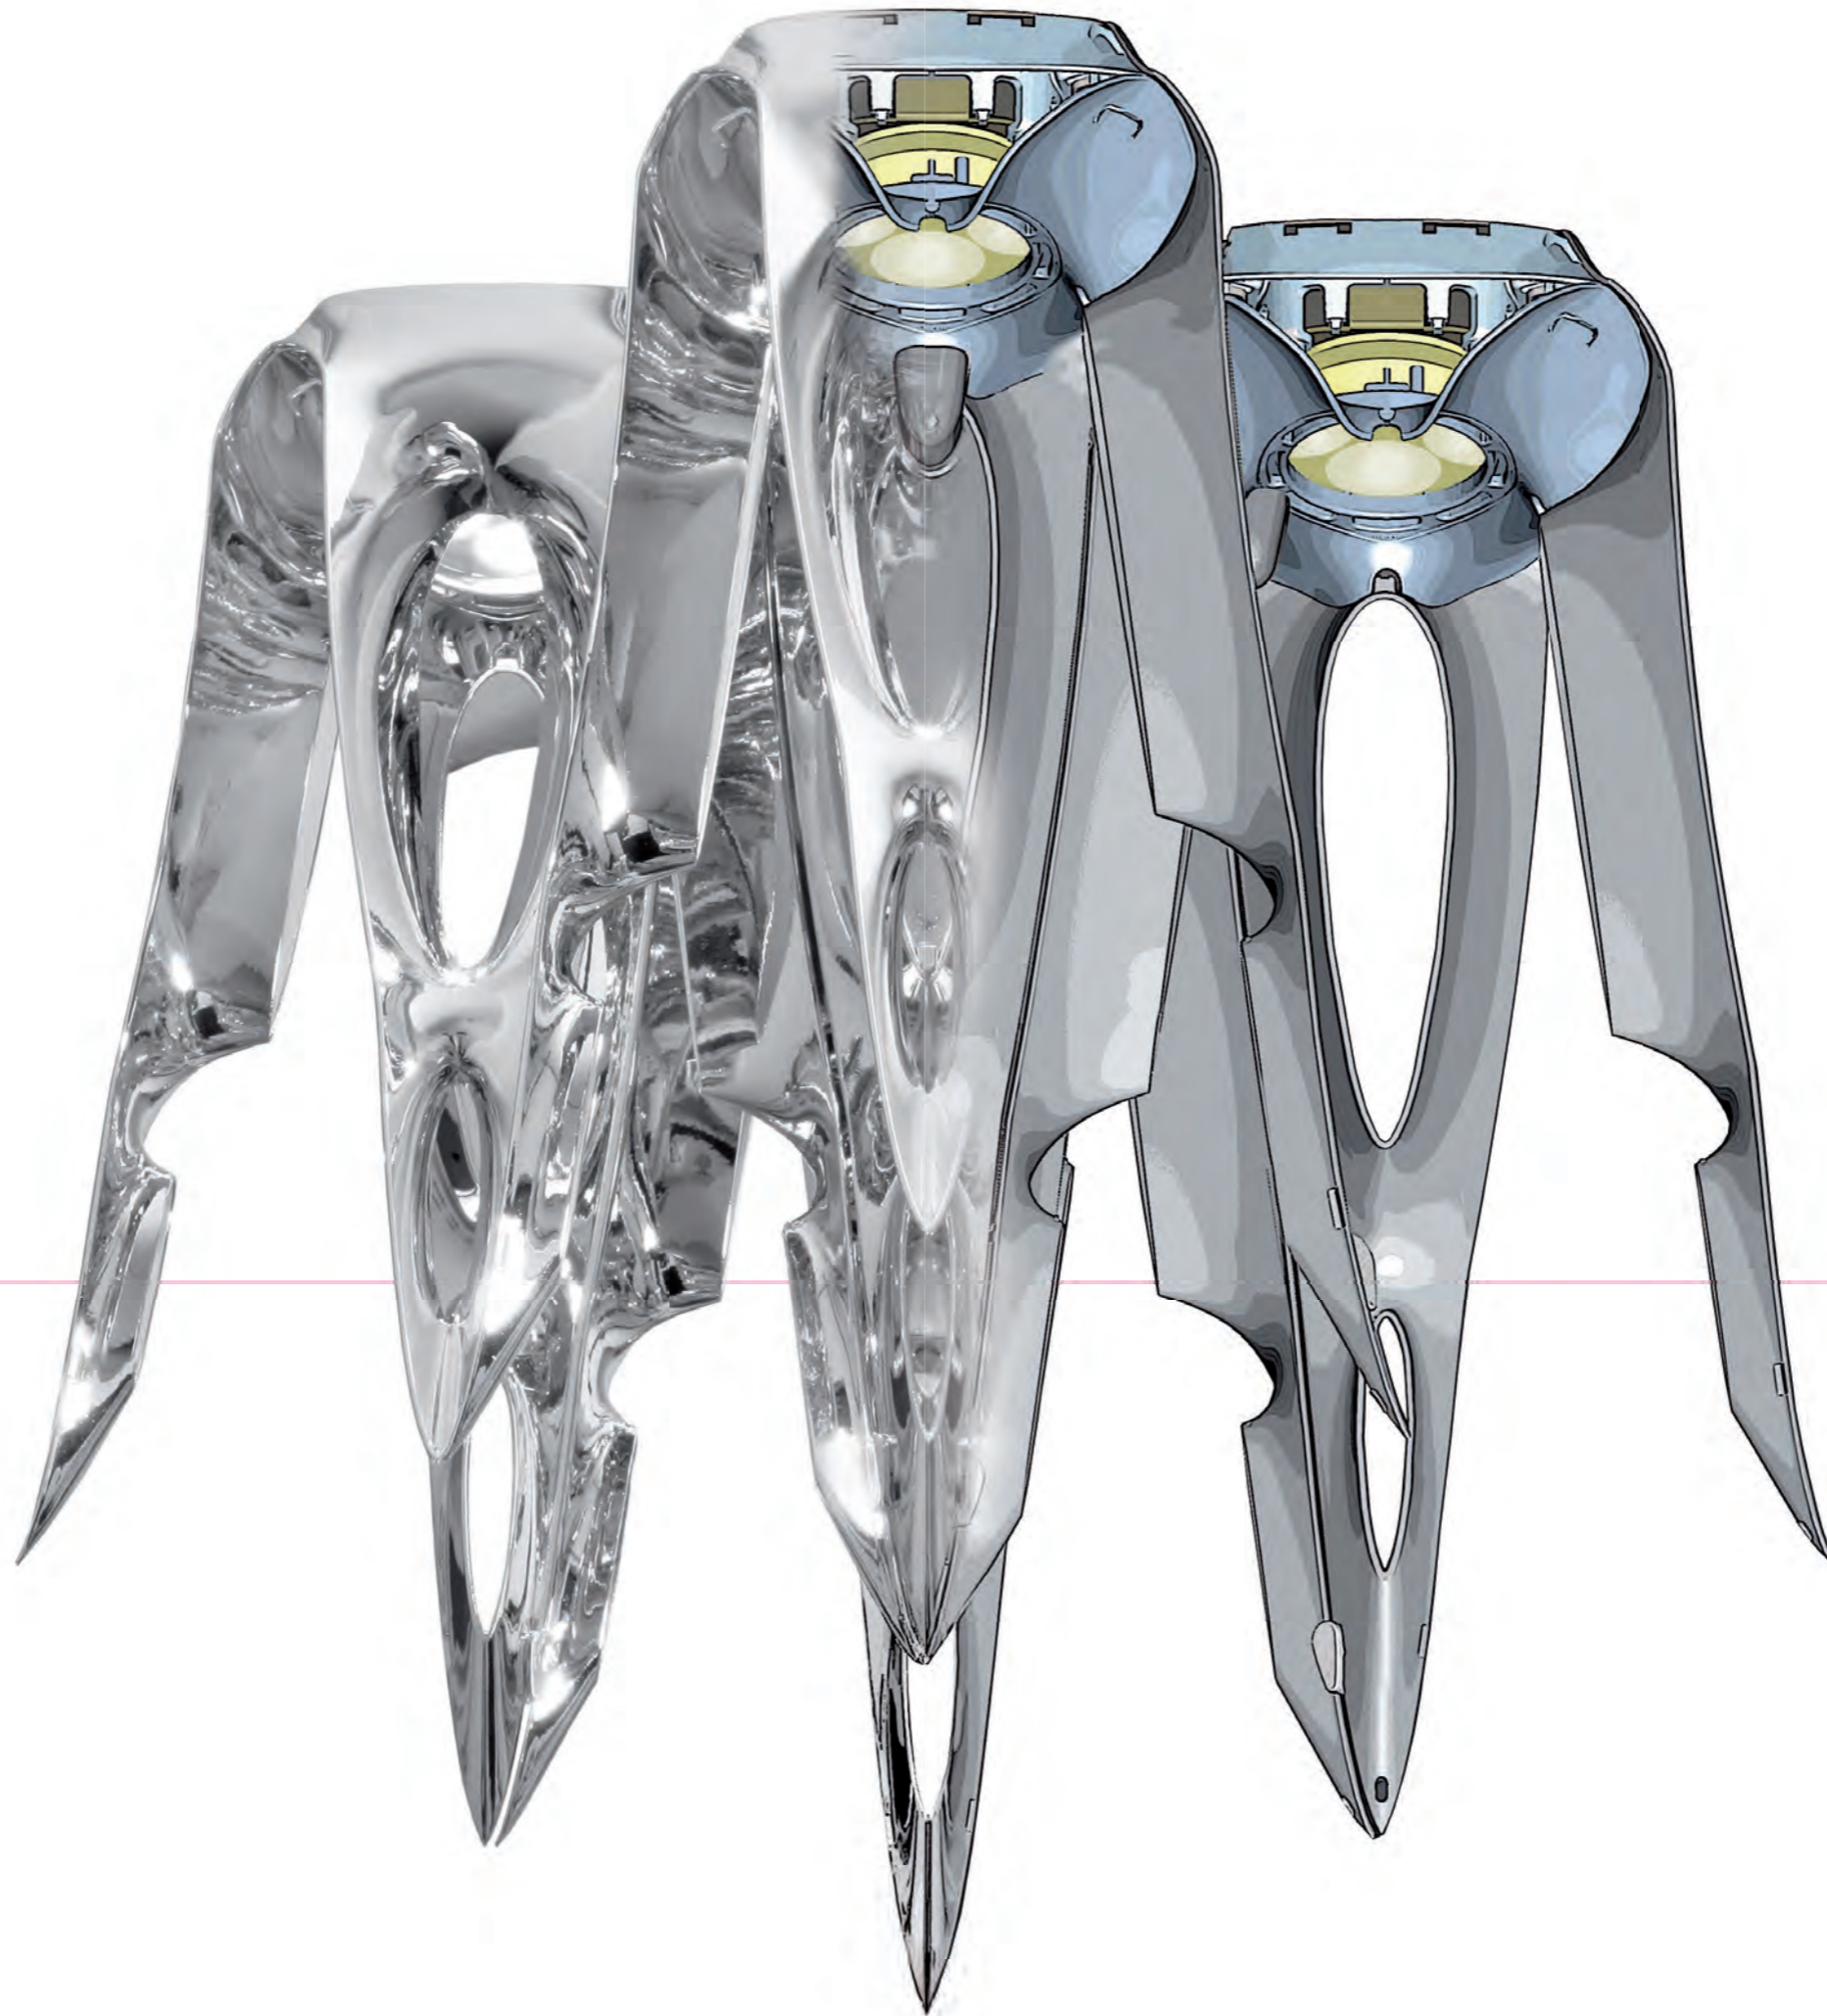

## Chandelier LQ

Exciting visual effects and a complex set of relations between form and light are created by bundling minimal surfaces into a multifaceted reflector and precisely arranging innovative LED light sources.

Durch das Zusammenfügen wiederkehrender Freiformen und die präzise Anordnung von innovativen LED-Lichtquellen entstehen spannende optische Effekte – eine komplexe Beziehung von Form und Licht.

La composizione di forme ricorrenti e il posizionamento preciso di moderne sorgenti LED creano effetti ottici sorprendenti: il risultato di un complesso interagire tra forme e luce.

## Chandelier LQ

Multiple quad elements can be arranged, creating individual lighting objects as eye-catching features.

Der Chandelier LQ lässt sich vervielfachen – so entstehen individuelle Lichtobjekte als Blickfang.

Il Chandelier LQ si presta al montaggio multiplo. Ne derivano oggetti luminosi che catturano gli sguardi.

## Chandelier LQ

Exclusive design and superior surface finishes, combined with elegance and environmentally compatible LED technology, highlight the individual atmosphere of sophisticated living spaces.

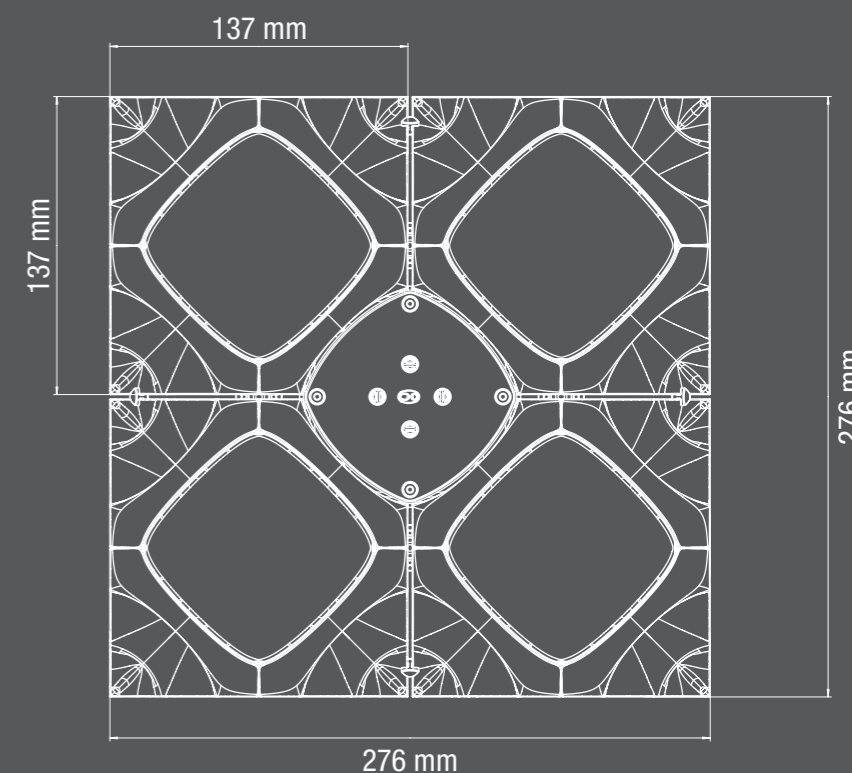

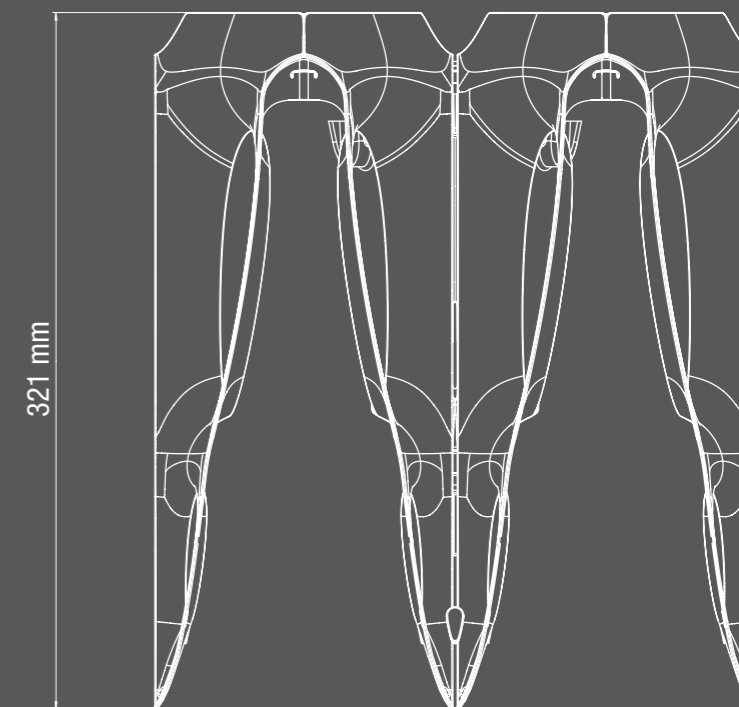

Exklusives Design, edle Oberflächen, gepaart mit mit Eleganz und umweltfreundlicher LED-Technologie unterstreichen die individuelle Atmosphäre hochwertig gestalteter Wohnräume.

Design esclusivo e finiture di raffinata eleganza si abbinano alla tecnologia LED, moderna ed ecosostenibile. Per un'atmosfera esclusiva nelle abitazioni di grande classe.
