# zumtobel group award

## **Zumtobel Group Award for Sustainability and Humanity in the Built Environment**

Seit vielen Jahren hat das Thema Nachhaltigkeit und Energieeffizienz höchste Priorität für die Zumtobel Gruppe. In konsequenter Weiterführung dieses Engagements verlieh das Unternehmen 2012 zum dritten Mal den Zumtobel Group Award. Der Award honoriert herausragende Lösungsansätze in Architektur und Ingenieurwesen, die einen Beitrag für eine lebenswertere Zukunft leisten.

For many years now, the Zumtobel Group has assigned top priority to sustainability and energy efficiency. As the logical next step in this commitment, the company has created the Zumtobel Group Award, which was presented for the third time in 2012. This award is designed to honour outstanding solutions in architecture and engineering that make a contribution to enhancing the future quality of life.

Frau Agata Spatzek | +43 5572 390 26492 | E-Mail [anmeldung@zumbobel.com](mailto:anmeldung@zumbobel.com)

**Wir freuen uns auf Ihr Kommen.**

## Preisträger Gebaute Umwelt / **Winner Built Environment**

Butaro Hospital, MASS Design Group, USA

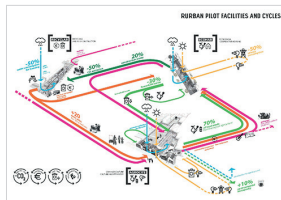

"The architects have succeeded in building a bridge to innovative technologies and good healthcare for a poor, rural region. What is particularly remarkable is that this sophisticated building was realised in this environment by local labour," stated the Jury.

## Preisträger Forschung & Initiative / **Winner Research & Initiative**

R-URBAN, Atelier d'architecture autogérée (AAA), FR

"In this project, the architects from AAA have developed different micro-tools with which to tackle the big social and ecological themes in an urban setting. For us, the three R-URBAN pilot projects have a pioneering character because they have proven robust, because they empower local people, and because they help revitalise a neglected urban context," commented the Jury.
