The XETARO luminaire meets EU ATEX Directive 2014/34/EU (Equipment Directive) and is for use in potentially explosive environments.

Environment	Area classification		European Norm
Risk of explosion – flammable dust	BE3N1	ZONE 22	EN 60 079-17 EN 60 079-14 EN 60 079-10-2
Risk of explosion – flammable gas and vapour	BE3N2	ZONE 2	EN 60 079-10-1 EN 60 079-14

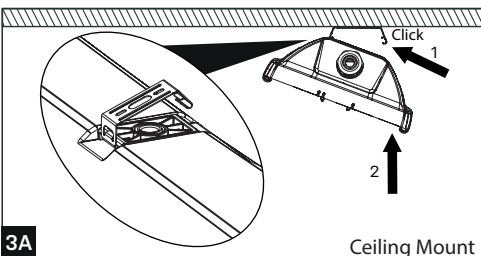

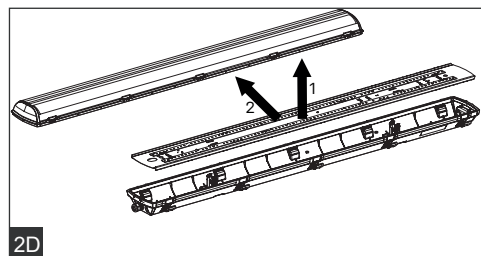

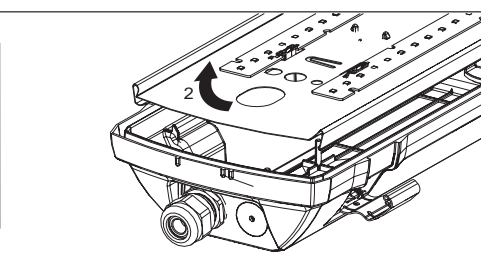

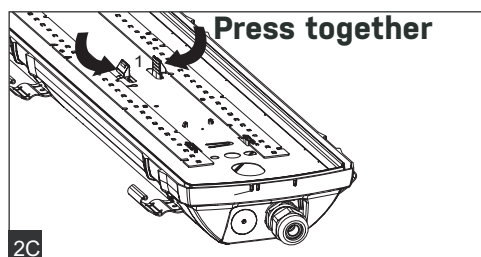

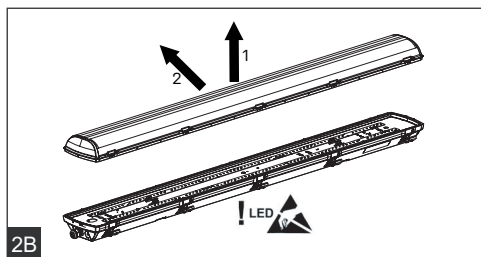

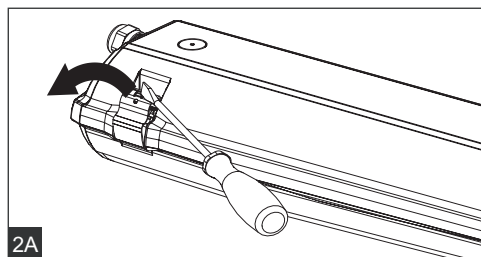

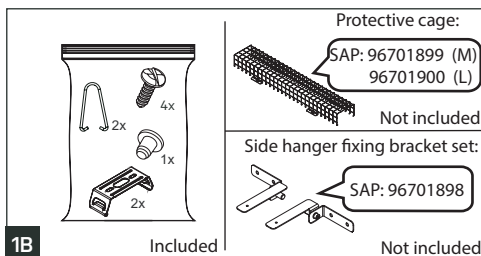

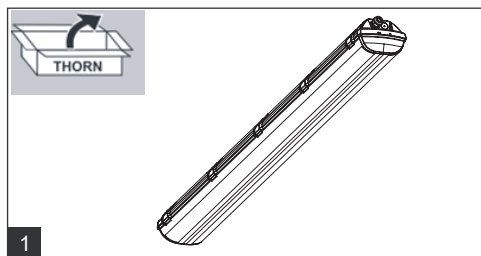

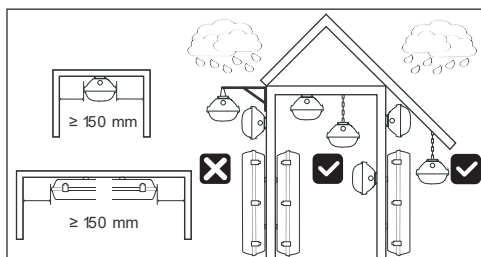

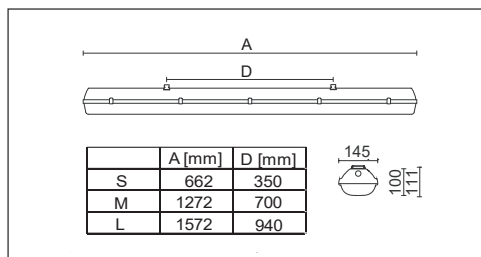

Conditions of use and maintenance

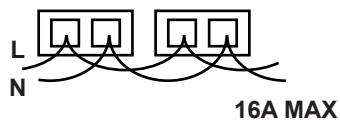

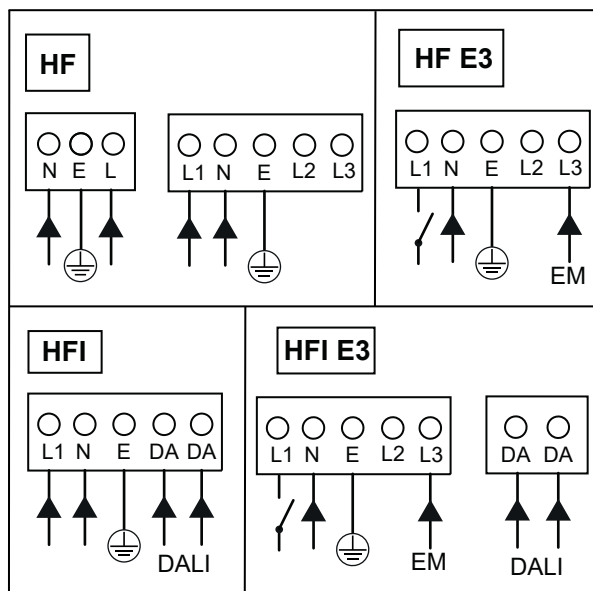

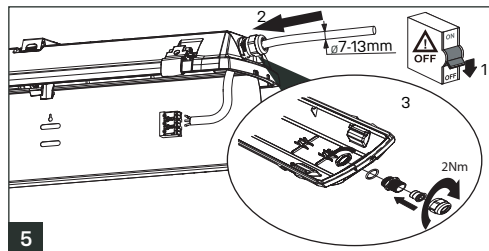

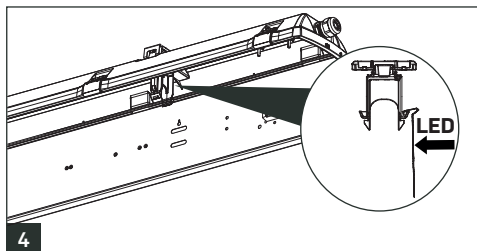

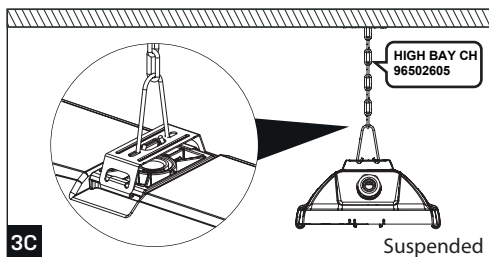

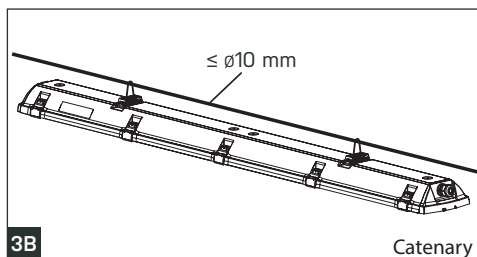

Please refer to the standards listed in Table 1 if using luminaires in the environments mentioned above.

- An unused cable gland must sealed with the included ATEX plug.
- Potential electrostatic charging hazard. In potentially explosive environments, the luminaire may only be cleaned with a damp cloth and the person carrying out the cleaning must be earthed.
- Disconnection and replacement of the battery is only possible out of the environment with explosion hazard.
