## Design elements from across the world

The Stylish SUPERSYSTEM units look like fireflies glancing out of a tree.

“The SUPERSYSTEM spots represent little “fireflies” glancing out of the tree ceiling and delicately looking down to the tables. For me the choice of using SUPERSYSTEM was natural, as it is the smallest on most powerful spot in the world with an excellent lighting quality.”

Alain Pin from Light & Day, Clichy | FR

### Almaz by Momo', Dubai | UAE

Architect: Annabel Karim Kassar

Lighting Design: Alain Pin from Light & Day, Clichy | FR

Lighting Solution: SUPERSYSTEM spotlight, CLEAN clean-room luminaire, MICROS LED downlight, PANOS infinity LED downlight, LUXMATE PROFESSIONAL Lighting management system

Almaz by Momo', the stylish and contemporary North African restaurant, has just opened its third location in the United Arab Emirates at The Beach venue in the Jumeirah Beach Residence (JBR). Almaz by Momo' boasts a menu that incorporates influences from the North Africa and Levant regions, along with selected Mediterranean dishes.

The décor blends perfectly with the environment, using light-coloured wood and materials in shades that complement the striking combination of sun, sky and sea. The restaurant includes elements from all over the world. The essence of bespoke nostalgia is primarily shaped by the distinctive collection of furniture pieces, including wicker chairs and a series of sofas upholstered in rich fabrics. The addition of rustic artefacts and custom-made psychedelic tiles help guarantee an atmosphere that is truly unique.

For the owner of the restaurant, the lighting solution was an integral part of the overall concept. The solution had to provide just the right ambience, helping diners relax and showcasing the extraordinary range of furniture. Suspended SUPERSYSTEM spots meet these requirements and offer complete flexibility, as they can be moved around the track to suit changes in the interior layout. The minimalist design of the compact luminaire integrates discretely with the décor of the restaurant - without adding a potentially distracting feature.

LUXMATE PROFESSIONAL ensures easy control of the lighting solution throughout the restaurant. CLEAN provides excellent lighting in the kitchen, whilst PANOS infinity and MICROS deliver general lighting in the back-of-house areas.

SUPERSYSTEM compliments the architectural framework of Almaz, creating a scenic environment.
