

## Press Release

Dornbirn, 27 March 2020

01

### **Coronavirus (COVID-19): Information on the current situation at the Zumtobel Group**

Dornbirn, Austria – The Zumtobel Group and its brands continue to work intensively to maintain business activities and ensure the best possible service for their customers, even in the currently difficult times and the daily-changing situation.

As a responsible company, the Zumtobel Group follows the guidelines of the Austrian federal government and the general recommendations of the health authorities, and places the health and safety of its customers, partners and employees at the forefront of all its activities.

#### **Availability**

Many employees are currently working from home. This means that our customers can reach their usual contacts by phone or virtually.

#### **Capability to deliver maintained**

With its production facilities and distribution centres, the Zumtobel Group's capability to deliver is maintained. The sites operate under strict hygiene precautionary measures to protect suppliers, forwarders and employees.

#### **International production network supports operations**

The Zumtobel Group's luminaire plant in Les Andelys, France, experienced a confirmed case of corona (COVID-19) despite compliance with all hygiene measures and was therefore temporarily closed. This precautionary measure was taken to avoid any further risk and to protect the health of all employees and parties involved. Within the international Zumtobel Group production network, the manufacturing at the plant in Les Andelys, which specialises in outdoor luminaires, will be covered by the production facility in Spennymoor, UK, until Les Andelys can resume work depending on further developments and recommendations by the local government. Customers can still reach the management at-site by phone in the meantime.

#### **Job retention: planned short-time work in Austria**

In Austria, the Zumtobel Group plans to implement the solidary offer by the federal government to introduce short-time work for three months beginning on 1 April 2020. The respective application was submitted today to the AMS (Public Employment Service Austria) in agreement with the Works Council. With the short-time working planned for Austria, the company is striving to maintain jobs beyond this crisis. It will also ensure that core functions within the Zumtobel Group can continue to be maintained during the phase of short-time work, so that customers can continue to receive the best possible service during this period.

The Zumtobel Group wishes its customers, partners and employees good health and would like to thank them for their trust.

## About the Zumtobel Group:

The Zumtobel Group is an international lighting group and a leading supplier of innovative lighting solutions, lighting components and associated services. With its brands, acdc, Thorn, Tridonic and Zumtobel, the Group offers its customers around the world a comprehensive portfolio of products and services. The Group's know-how about the effects of light on people, acquired over decades, forms the basis for the development of innovations and for accessing new fields of business. In the lighting business, the Group with its Thorn and Zumtobel brands, is one of the European market leaders. Through its lighting technology brand, Tridonic, the Zumtobel Group plays a leading role worldwide in the manufacture of hardware and software for lighting systems (LED light sources and LED drivers, sensors and lighting management). The Zumtobel Group's service offering is one of the most comprehensive in the entire lighting industry, including consultation on smart lighting controls and emergency lighting systems, light contracting, design services and project management of turnkey lighting solutions, as well as new, data-based services focused on delivering connectivity for buildings and municipalities via the lighting infrastructure. The Group is listed on the Vienna Stock Exchange (ATX Prime) and currently holds a workforce of around 5,800 employees. In the 2018/19 financial year, the Group posted revenues of EUR 1,162.0 million. The Zumtobel Group is based in Dornbirn in the Vorarlberg region of Austria.
